Kelowna, British Columbia

Urban and rural; nature and culture; playtime and downtime: Kelowna isn't just one destination. It's a whole bunch of them, located in one uniquely beautiful place. Relatively undiscovered, Kelowna is never too crowded despite playing host to visitors the world over. Kelowna's growing Cultural District covers a six-block downtown area and features a concentration of galleries, museums, theaters, a casino, artists’ studios, fine dining, unique shops and a vibrant cultural life all year long.

THE CANADIAN ASSOCIATION OF ORTHODONTISTS
WOULD LIKE TO CONGRATULATE
the Graduate Orthodontic Program
at the University of Alberta on your
50th Anniversary
DOCTORS’ SCIENTIFIC PROGRAM
**Buccal Screws**

9:00 am – 10:15 am | 10:45 am – 12:00 pm

YOU’LL LEARN: Uses of Buccal Screws and Tips and Tricks for their placement!

This presentation will present the different uses for buccal screws, Tips and Tricks on where to place them, and techniques used to have less TAD failure. Buccal Screws have become an important part of any practice and are integral in treating difficult cases and creating beautiful smiles. Uses of Buccal Screws include: Gummy Smile correction, Canted Smile correction, Molar Protraction, and Lower Arch Distillization. Dr. Frost will show cases to illustrate diagnosis and treatment planning using Buccal Screws and the outcomes achieved.

**DR. STUART FROST, D.D.S.**

Dr. Frost received his dental degree from University of the Pacific School of Dentistry and practiced general dentistry for 5 years. After completing a 1-year fellowship in Temporomandibular Joint Dysfunction, he entered his orthodontic residency and later received his certificate in orthodontics from University of Rochester/Eastman Dental Center. For the past decade, Dr. Frost has been a Clinical Associate Professor at the University of Pacific Orthodontic program and has frequently lectured at University of Rochester/Eastman Dental Center and AT STILL orthodontic programs.

Dr. Frost is a Key Thought Leader for Ormco, Propel, and iCAT, and has lectured nationally and internationally for these companies. Dr. Frost has published numerous orthodontic articles and recently published his book titled “The Artist Orthodontist”, which covers topics such as: The Artistry in Orthodontics, Airway Aware Orthodontics, Finishing, and how Conebeam imaging has changed our profession. Dr. Frost has a deep passion for creating beautiful, artistic smiles and loves helping other orthodontists get better at their craft. He has devoted his career to the pursuit of excellence and helping others achieve the same.

New and Younger Members Luncheon

12:30 pm – 2:00 pm  |  By invitation only

Back for the second year is our New and Younger Members Luncheon Speed Dating Luncheon! We have invited experts who have been through it all and have the scars to prove it, to come share their wisdom with students. Come with those questions that keep you awake at night: Location, what location?; Buy or start from scratch, associate or go it alone, corporations, overhead, staffing, accounting, marketing. The list is long and limited only by one’s creative imagination. The format will be: following a light lunch, New and Younger Members will spend six (6) minutes at each table in conversation with those who really know. It will be quiet. It will be intense. It will be the perfect opportunity for one to ask those questions that one always wanted to ask in an intimate, non-judgmental format. Up to twenty short “dates” will be available to each member. Not only do we welcome novel feedback, but we encourage it! At the time of this writing, the all-star lineup is yet to be confirmed, but for sure there will be experts on hand from across the country representing a variety of practice formats. Be sure to secure a spot for the New and Younger Luncheon in your registration.

YOU’LL LEARN:
Everything you always wanted to ask but were too afraid to do in a large group!

ORTHODONTIC INSURANCE PRESENTATION & LUNCHEON

Join CAO Insurance Committee Co-Chairs Drs. Mike Wagner and Don Johnston as they walk you through the upcoming changes in Orthodontic Insurance, including Predetermination, Using the Standard Information Form, and Electronic Submissions. Time for both a presentation and Q&A will be available.

This session is complimentary, but we would appreciate your indication on your Conference Registration Form if you plan to attend so conference organizers can ensure the room size and the food requirements are sufficient for the number of people interested in attending.
Jim Janakievski was born and raised in Toronto. He received his D.D.S. from the University of Toronto, which was followed by a general practice residency in upstate New York. He then returned to Toronto and spent five years in general practice. His specialty post-graduate training was completed at the University of Washington, where he received a Certificate in Periodontology with a M.S.D. degree and a Fellowship in Prosthodontics. After graduating, Jim was a full-time assistant professor at the University of Washington Graduate Periodontics department.

As a student and faculty member, he was mentored by Dr. Vince Kokich Sr., orthodontist, who later introduced Jim to his future practice partner Dr. David Mathews with whom he maintained a private practice in Tacoma, Washington. He is a Diplomate of the American Board of Periodontology, and a Fellow of the American Academy of Esthetic Dentistry. He is a reviewer for several dental journals and has published in the area of interdisciplinary dentistry, dental implants and tooth auto-transplantation. He enjoys teaching and sharing his experiences at North American and international conferences. In addition, Jim also teaches at Spear Education in Scottsdale, AZ, and participates in practice-based clinical research through the McGuire Institute of Houston, TX.

**YOU’LL LEARN:**
The Benefits of tooth auto-transplantation in your complex cases.

Orthodontists are often faced with treatment planning dilemmas for patients presenting with complex impacted, congenitally missing, and traumatized teeth. Traditional treatment options are usually limited for these patients with attempts at extraction of teeth, space closure or space appropriation for a future dental implant. The value of a natural tooth to maintain and develop the supporting bone and gingival tissues is well accepted. From this perspective, the presentation will discuss various protocols for these clinical situations with a focus on tooth auto-transplantation aimed at natural tooth replacement and alveolar ridge management.

**McIntyre Lecturer**
Latest Advances in Canadian Orthodontic Research

10:30 am – 12:00 pm

Canada has six outstanding post graduate Orthodontic programs which have achieved international recognition for their published areas of research. The CAO is proud to support and promote their ongoing research projects which continue to expand our knowledge of core orthodontic principles and improve the efficiency and level of care that orthodontists provide to their patients. In this symposium program, a post graduate student from each Canadian Orthodontic institution will present a short summary abstract of his/her current research project. A Q & A will be available for delegates to ask questions after each presentation.

The Evolution of Soft Tissue Orthodontics

2:00 pm – 3:15 pm

YOU’LL LEARN:
The correlation between soft tissue factors and your optimum treatment outcomes.

Explore the evolution of soft tissue driven treatment and learn to take command of the soft tissue factors with Soft Tissue Finishing™ techniques using Botox and Dermal Fillers for exceptional treatment outcomes.

DR. SCOTT FREY, D.D.S.

Dr. Scott Frey is a graduate of the University of the Pacific Arthur A. Dugoni School of Dentistry and earned his post-doctoral Master’s degree and certificate in orthodontics from the University of Colorado. He is a Board-Certified Orthodontist practicing in Norfolk, VA and for his achievements in private practice has earned fellowships from the World Congress of Minimally Invasive Dentistry and the American Academy of Facial Esthetics.

Dr. Frey has held a faculty position at the University of the Pacific teaching dental esthetics and occlusion and has developed the Soft Tissue Orthodontics Curriculum for Henry Schein. Dr. Frey has authored numerous publications, is a reviewer for the Journal of Aesthetic Plastic Surgery, Journal of Cosmetic Dermatology, and the Angle Orthodontist, is a founder of theorthocosmos.com, and is an international authority on esthetic and digital orthodontics speaking for Henry Schein Orthodontics and Invisalign.

Custom Aligner Fabrication Workflow

9:00 am – 10:15 am | 10:45 am – 12:00 pm

YOU’LL LEARN:
How the integration of some or all of this fabrication workflow could be implemented in your office.

Many practices are looking for a solution to retain control of their patients aligner treatment from start to finish. This workflow will show how the you can adopt these steps into your practice to facilitate this transition.

1. Intra Oral scanning is the best choice for our patients. This demonstration will use the iTero scanner. This will allow you to attain accurate, fast and digital records of your patients while eliminating the need for impressions.

2. In house aligner fabrication requires robust yet simple to use software to allow orthodontists to program aligner treatment plans. uLab software office an excellent platform to manage this workflow.

3. 3D printing will allow your practice to be in control of fabricating appliances. You will be shown how simple it can be to incorporate this part of the puzzle in your own practice.

4. The last step will be to demonstrate the fabrication of aligners. Using the Drufomat thermoforming machine to vacuum form aligner plastic onto your printed models.

ORTHODONTIC INSURANCE PRESENTATION & LUNCHEON

Turning the Best of the Best into ‘Top Gun’!

2:00 pm – 3:15 pm | 3:45 pm – 5:00 pm

Leadership starts from the top and permeates through your practice. How do organizations identify and develop winning teams? Many practices struggle with this ability and a few have this dialed in well. Let’s create the best of the best and then take them further. A manager dictates performance while a leader demonstrates performance and invites others on the journey! A great leader inspires confidence and trust in other people and MOVES THEM TO ACTION! This is where your practice will or will not find success. You will be able to identify and develop true ‘Top Gun’ talent within your practice. You will have the management skills needed for ‘Top Gun’ success. You will know what it takes to have a ‘Top Gun’ team.

YOU’LL LEARN:
How to identify and develop true ‘Top Gun’ talent within your practice.

MICHELLE SHIMMIN
Michelle Shimmin is an International lecturer, trainer and consultant who has been in the field of orthodontics for the past 29 years, working as a Registered Dental Assistant, teaching orthodontic assisting, marketing, financials, treatment coordinating and practice management. She is an effective TC who led her office to Elite status while only seeing patients 2.5 days a week. This office is currently top 1%! Michelle travels the country and helps transform orthodontic offices on their systems to promote training, growth, and success through a comprehensive practice approach. She is now considered one of the most sought-after trainers with 30 lecture events a year, both domestic and international, including the 2014, 2016, and 2018 Align Ortho Summit, AAO, PCSO, HSO, SCAO, TIO and many others. She has also recorded Ask the Expert webinars for Align and authored articles for publications such as Bentson Copple’s reSource and Colle + McVoy’s Global Teen Edge Newsletter.
Teamwork, Technology & Culture

9:00 am – 10:15 am | 10:45 am – 12:00 pm

YOU’LL LEARN:
The importance of combining Teamwork and Technology in the practice to change your culture!

We are living in an era of change. Digital technology is moving into the mainstream in the orthodontic office. The transition from a doctor-centered delivery to delegation and improved and efficient delivery of care is happening. Teamwork and an adaptive approach to treatment are needed to make this vision a reality.

These are not forward-looking statements – they are present day facts. Starting from the top down, a culture of embracing technology and teamwork is going to fuel success. Dr. Palleck will outline her vision of the present-day practice to help propel you into a future filled with passionate providers!

DR. SONIA PALLECK, D.D.S.

Dr. Palleck is a two-time graduate of the University of Western Ontario, having completed her dental program in 1993 and going on to achieve her Masters in Orthodontics in 1999. She started a solo practice in Woodstock, Ontario, Canada upon finishing. She has lectured internationally on the use of digital technologies and acceleration techniques to improve efficiency. She is a Clinical Instructor at UWO Graduate Orthodontic program and enjoys teaching very much. Dr. Palleck has a beautiful daughter, Djuka, and they happily reside in London, Ontario.

SUPPORT THE CFAO!

As has become the tradition, there will be a silent auction at this year’s conference. Please visit the tables by registration as we look to continue supporting orthodontic education in a variety of ways through the money we raise at this growing event. This year’s auction promises to offer a variety of items that will entice you.

Bring your credit cards and generosity!
Improving Oral Hygiene for our Patients: The Impact of Poor Oral Hygiene on the General Practice and Tools that Empower Our Patients to Change!

2:00 pm – 3:15 pm

Hygiene appointments can be stressful and leave a negative impact for the patient with persistent poor oral hygiene. It’s a well-known fact amongst the dental team that repeatedly telling these patients what to do to see improvements seldom works. What if we take it up a notch? Research has helped us to understand what is required to better engage and communicate with these patients. Coupled with a home care plan, these tools can provide patients an opportunity to break this cycle for good!

And what about our ‘star hygiene patients’ that end up with recession/pitting and damage from acid erosion? The program can help with these patients too!

With a standardized check-up, consistent reporting, home therapy kit and countless other advantages, these tools can help ease many of the oral hygiene challenges we’re faced with every day to help give our patients the highest level of care.

Join me for a motivating session! Plus, all in attendance will receive a Powerbrush!

DR. DANA VAN ELSLANDE, D.D.S., M.Sc, (D. ORTHO), FRCD(C)

Dr. Van Elslande is a Certified Specialist in Orthodontics & Dentofacial Orthopedics, and a Fellow of the Royal College of Dentists of Canada, in addition to being a member of the Alberta Dental Association & College.

Currently in private practice in Calgary, Okotoks, and Canmore, Dr. Van Elslande manages a dental study group in Calgary and has several publications in peer-reviewed literature.

Taste of East Kelowna

Kelowna’s rich fruit and wine region is home to some of the best wineries and cideries, so on this tour you will get a chance to sample three of their award winners. Only 20 minutes to the east of downtown Kelowna, tour participants will get to see and taste the best!

With 110 acres of vineyards in three distinctive sites, Cedar Creek Estate Winery was one of the first eight wineries in the Okanagan. By 2021, Cedar Creek will be a 100% certified organic winery. Here you will have a tour, along with a two course, wine paired lunch.

You will also visit Soma Craft Cidery, a working alpaca farm, orchard and cidery with a restaurant to enjoy the tranquility of East Kelowna. They take pride in creating value-added products originating from their own back yard. They harvest local, natural ingredients, collaborate with neighbours, and operate at a sustainable scale.

A final stop at Wiseacre Farm Distillery. They say it’s ‘the little things’ that matter most! The philosophy and profile of the small-batch, quality spirits are inspired by the farm and forest surrounding the tiny distillery. The team aspire to use an ever-increasing amount of ingredients grown on the farm and just a stone’s throw from the still house. They strive to keep the spirits as ‘local’ as they can and each step in the production process is carried out by hand, by a passionate and nimble team. Enjoy a tour of the working farm and tasting in the still house.

TIME:
10:00 am – 5:00 pm

DRESS CODE:
Casual (layers and sneakers encouraged)

PRICE:
$175 + GST

INCLUDES:
Transportation, guide, tastings, two course lunch with pairings
Kettle Valley Cycling Tour

The Kettle Valley Railroad, opened in 1915, was a subsidiary of the Canadian Pacific Railway that operated in the Thompson-Okanagan region BC. The railway was abandoned in portions beginning in 1961, with the final segment falling into disuse in 1989. Much of the railroad’s original route has been converted to a multi-use recreational trail, known as the Kettle Valley Rail Trail, which carries the Trans-Canada Trail through this part of BC.

Today guests will be met in the hotel lobby to depart by shuttle for the Myra Canyon Trailhead where you will be provided with a bike that has been fitted based on your height, in advance. Water and snacks are provided for the ride. On the trail, after a short safety lesson and historical interpretation of the area, the guide will lead the group on a 20 km flat cycle, viewing all 18 trestles and two tunnels. The vistas from 4,000 feet, overlooking the Okanagan Valley are second-to-none.

A beautiful place to stop for lunch and enjoy some local cider after your morning on the trestles. Soma Craft Cidery is a working alpaca farm, orchard and cidery with a restaurant to enjoy the tranquility of East Kelowna. They take pride in creating value-added products originating from their own back yard. They harvest local, natural ingredients, collaborate with neighbours, and operate at a sustainable scale.
